Home Campus:

- Yonsei University (Seoul, Korea)
- Int'l Exchange Student at UC Santa Barbara (2008-09)

Majors:

Business Administration and Economics

Date of Graduation:

June 2009

UC Center Sacramento Internship:

Morgan Stanley, Global Wealth Management Department

Why did you decide to participate in the UC Center Sacramento?

As an exchange student who will only be in the US for a year, I was looking for the opportunity to have a new, energetic, and professional work experience. Finding a professional experience in the US was especially difficult because many opportunities are closed to foreigners. The staff at the UC Center Sacramento were able to find an internship that fit my needs and desires exactly.

What was your favorite part of the entire experience?

The most fascinating part in UCCS program was meeting new people and developing a network in the industry I want to work for. All of the other UC Center Sacramento Scholar Interns I have been living and working with are very friendly and respectful.

What would you say to a student who is undecided about applying to UCCS? Especially for international students, if you want to be a special person and prepare yourself to enter the real US working world, I strongly recommend applying for the program. Do not hesitate, don't be scared, and have confidence!
