

UCCS Testimonials

"Sacramento has been an interesting experience for me. In my whole entire life, I have never seen or met so many cameras, journalists, and politicians in such a short span of time. Be prepared to read, hear, watch, listen, eat, drink, and breathe politics in Sacramento."

Sharon Hoac, UC Riverside

"I have thoroughly enjoyed my Sacramento experience. Working in the fast-paced, demanding environment of Finance, I have learned to think on my feet."

Krystle Mariano, UC Berkeley

"I like the fact that my mentor let me decide what sort of project I wanted. There were no set criteria what my internship would entail. My mentor worked with me to design an internship that best suited my interest."

Jeffery K. Fung, UC Los Angeles

"UCCS truly offers something for everyone regardless of major and future career goals. It gives students the opportunity to learn about, and to take part in, the shaping of California's public policy."

Olivia Lee, UC Berkeley

"Make the most of your internship, remember people's names and make it a habit to address them by that name. That can be quite a challenge considering the number of people you may meet all at one time! Have fun!"

Jennifer Jimenez, UC Irvine
